1520/8813 55mm PZW

55mm BACKSET MORTICE LOCK & LATCH

SSF Locks (part of the FSB group of companies) are designed and made in Germany to the highest engineering standards. Locks provided by Halliday + Baillie are for 'high usage doors' to provide additional durability.

SSF Locks and Latches are designed specifically for use with FSB door furniture and includes heavy duty springing to ensure lever stability and superior performance over time.

The 1520/8813 55mm backset bathroom privacy mortice lock & latch has an 8mm spindle drive for the lever handle and the privacy turn and release.

Handing for all FSS locks and latches is easily changed on site WITHOUT opening the lock or latch case. Opening the lock or latch case will void the warranty. Please see specific handing sheets available on www.hallidaybaillie.com.

A full range of standard and rebated strike plates are available for all locks and latches and are sold separately. Please note cylinders are also sold separately to the mortice lock as these are ordered specific to the door thickness.

Please see the drawing opposite for cut out dimensions.

Finishes:
SS Stainless Steel
KC Black
ORB Oil Rubbed Bronze
