

All Yale Fire Safes are equipped with a unique digital security keypad unlike any other on the market today. A scramble number input enables personal codes to be hidden within longer sequences of numbers, whilst additional access codes can be set for one time use, ensuring privacy no matter who is in the room when accessing your safe. Simply put, these state-of-the-art digitalized fire safes have been carefully designed to be worthy of your confidence and the Yale brand name.

keep you cool

# Designed to keep you cool

Like every Yale quality assured product, the new range of Yale Fire Safes has been designed with your peace of mind in focus. The entire range has been built and thoroughly tested to withstand intense heat and humidity, resist attack, leaving you the knowledge that your most precious documents are in good hands.

Two types of highly resistant safe-boxes guarantee a high level of protection and fire resistance. The Yale Fire Safe for Documents protects your passports and all precious paper documents. The Yale Data Fire Safe contains an additional "safe within a safe" insulation layer. This protects extra sensitive digital data, whether they are on an external hard-drive, on CD ROMs, DVDs or tapes.

Yale Fire Safes are certified by SP (Swedish National Testing & Research Institute) and KS (Korea Standard)
