EXCITINGLY DIFFERENT

UNCOMPROMISING SIMPLICITY

The M-Series range of sliding door hardware by Mardeco represents a new age of flush pull handles and privacy locks for timber and aluminium sliding doors.

Packed with innovation and sophistication, these sleek, modern handles represent simplicity through uncompromising design. With Mardeco taking the time to get the range perfect, quality and ease of use have been emphasised in every aspect, from the handles themselves to the installation resources and packaging.

Designed in New Zealand, the M-Series perfectly represents what Mardeco is all about ... quality, design and good service. M-Series hardware comes with detailed installation instructions and additional parts for multiple applications, giving your project a cohesive look.

There are so many decisions to be made when it comes to fitting out a project, yet the decision about which sliding door hardware to choose is an easy one with the M-Series by Mardeco.

Everything you need to get it right on site.

Timeless yet modern, simple yet advanced, the new Mardeco m-series range of cavity slider hardware is unique in several ways. Not only can it be used on wooden and aluminium doors of different thicknesses, it also has interchangeable parts, meaning it can suit a number of different backsets.

Sleek and smooth, it feels like it was made for your hand, and the unique lock mechanism looks great and features a fantastic positive locking action. The m-series is exactly what customers have been looking for, as evidenced in the overwhelmingly positive feedback.
